

Quality Management Assurance Team

The Quality Management Assurance Team is an administrative team that provides activities, guidance and oversight to meet compliance from an organizational level. Because of the consistent communication between this trio of Partners groups, assurance, improvement and data teams, areas of opportunities can be identified in a more global manner with key actions and outcomes exhibited in a clear, consistent and timely approach.

Our main responsibilities are:

- Organizational audits
- Oversight of accreditation deliverables and processes
- External Review
- External Accreditation
- Corrective Action Plan Tracking
- Performance Improvement Planning
- Analyses of External Surveys
- Compliance Monitoring
- Annual Organizational Quality Evaluation
