Measurement Based Care Overview

Beth Lackey, Provider Network Director, blackey@partnersbhm.org

- Provider Forum (6-2019 PowerPoint Review)
- Please reference Partners Communication Bulletin for Measurement Based Care information: <https://providers.partnersbhm.org/provider-bulletin-93/>

- **Please attend the Measurement Based Care Webinar:** Date, Time and Location: Wednesday, October 2, 2019, 1:00 p.m. to 3:00 p.m.

Description: As Partners prepares the Provider Network to be positioned to work within both a standard plan and tailored plan environment, it is critical that providers are using a measurement-based care tool and can demonstrate a data sample from the use of that tool. While you as a provider may be in the process metric category, the use of the tool is key and the measurement conducted frequently, using the tool, is critical to move towards population health management. As this is such a critical area in improving the quality of the care and improving the lives of the members served, it is Partners expectation that currently credentialed and contracted Network Providers identify and use a Measurement Based Care tool by November 1, 2019.

Trainers: Gina Lasky, PhD, MAPL, and Lori Ramey, Health Management Associates. Measurement Based Care Webinar [Registration](#)
